OUR VISION

ISpA, together with all stakeholders, aims to create an enabling environment to strengthen the private sector in the Indian space industry.

ISpA echoes the Hon'ble Prime Minister's vision of "Atma Nirbhar Bharat".

ISpA aspires to position India at the forefront of the Global Space Ecosystem.

ABOUT US

ISpA is an apex **non-profit industry body**, set up exclusively for the successful collaborative development of the Space Industry in India. ISpA was created to be the **single voice** of the Space Industry and act as a bridge between the Government and the Industry.

We undertake **policy advocacy** and engage with all stakeholders from the Indian & global space ecosystem to **facilitate business opportunities** for the industry as well as empower our members to best serve the national aspirations.

ISpA provides an **engaging environment** to facilitate brainstorming, professional networking, knowledge sharing, and catalyze **collaborative relationships** by bringing all policymakers, government bodies, industry, user community, academia and resource providers on a **common platform**.

We have the unique distinction of being the only Association to be inaugurated by the Honourable Prime Minister of India.

Today is the day the Indian space sector receives new wings. For 75 years since independence....

Let this collective power of India's population take the space sector forward in an organised manner.

The Indian Space Association (ISpA) will play a huge role in this.

Shri Narendra Modi

Honourable Prime Minister of India

(During the inauguration of ISpA on 11 Oct 2021)

OUR OBJECTIVES

To perform an all-encompassing role for the entire Space Domain, ISpA aims to be an Advocate and Facilitator for the participation, growth and capacity building of the private as well as the public industry in India's Space domain.

ISpA engages with the Indian Government; regulatory bodies; national and international bodies; and industry stakeholders as well as participates in formulating effective; efficient and appropriate policies; and regulatory frameworks for :-

EASE OF DOING BUSINESS AND POLICY STABILITY

Advocacy for easy Availability, Accessibility, Affordability and Efficient Utilisation of Space Resources.

ENCOURAGE AND FACILITATE ENTIRE SPECTRUM OF SPACE DOMAIN ACTIVITIES

Fostering Awareness and Promotion of :-

- Satellite Design, Manufacture, Launch, Operate and R&D
- Satellite-based Communication Services including Satellite Broadband Connectivity.
- Entire Range of Space Applications and Services
- Capacity Building

PROMOTE AND COLLABORATE

Technology, Infrastructure, Investments and Innovation.

INTERNATIONAL PARTNERSHIPS

- Enhance and Strengthen Co-operation of International partners with the Indian Space Industry.
- Engage with global institutions on Space-related issues including policy, regulatory and technical matters.

The key focus area for ISpA remains the creation of an enabling environment for the entire private sector in space.

I encourage all stakeholders, Industry Partners, Startups, Academic Institutions, and Space-related government industries to work together to build a robust, resilient and future ready space ecosystem in India.
